INDEPENDENT AUDITOR'S REPORT

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority"), a discrete component unit of the City of Jacksonville, Florida, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Authority, as of September 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, and the other post-employment benefits and pension schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Schedule of Expenditures of Federal Awards and State Financial Assistance, is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and Chapter 10.550, Rules of the Auditor General, and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and State Financial Assistance, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and State Financial Assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 14, 2020 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

April 14, 2020 Melbourne, Florida Berman Hopkins Wright & LaHam CPAs and Associates, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

September 30, 2019

This discussion and analysis is designed to provide insight into the Jacksonville Transportation Authority's (the "JTA" or the "Authority") annual financial report by discussing significant financial issues and changes in financial position based on currently known facts in order to better explain material changes in the Authority's financial position and performance during the Fiscal Year ended September 30, 2019 as compared to September 30, 2018.

The information contained herein is designed to assist the reader in assessing the Authority's financial position. We encourage readers to consider the information contained in this discussion in conjunction with all of the other sections of the Authority's financial statements.

Financial Highlights

The financial highlights section will serve as background in understanding the more detailed explanations that follow:

- The Authority's total net position of combined governmental and business type activities on the Statement of Net Position was \$260.0 million, which consisted of net investment in capital assets of \$268.0 million and an unrestricted net position of (\$7.9) million.
- The Authority's spending in federal and state expenditures in FY19 supports the Authority's mission to improve Northeast Florida's economy, environment and quality of life by providing safe, reliable, efficient and sustainable multimodal transportation services and facilities. The spending was primarily attributable to the following initiatives:
 - Investments in various Bus Rapid Transit (BRT) corridors, including CNG Buses, with technology to support real-time bus arrival information, related construction and infrastructure including transit signal priority and branded (First Coast Flyer) stations.
 - Support of the Authority's fleet replacement plan with new bus purchases.
 - Continual landside and marine infrastructure improvements for the St. Johns River Ferry including vessel haul out.
 - The Authority's administrative offices and Northeast Florida's new regional mobility hub, the Jacksonville. Regional Transportation Center (JRTC).
- Total capital assets net of accumulated depreciation, including custodial projects, increased from \$303.2 million in 2018 to \$377.0 million in 2019, an increase of 24%. The increase in capital assets was primarily due to an increase in construction in progress for the Authority's previously mentioned major project initiatives.

Overview of the Financial Statements

This discussion is to introduce the Authority's basic financial statements. The basic financial statements are comprised of three components: government-wide statements, fund financial statements, and notes to the financial statements.

Overview of the Financial Statements (continued)

The government-wide financial statements are the first two statements that focus on the Authority as a whole and provide both long-term and short-term information about the Authority's overall financial condition. These statements provide readers with a broad view of the Authority's finances, similar to a private sector business.

The fund financial statements are the remaining statements. They are similar to traditional governmental financial statements. These statements report on individual parts of the Authority's operations and include more detail than the government-wide statements.

Government-wide Financial Statements

The government-wide statements report on the Authority as a whole using accounting rules very similar to those used by private companies. There are two government-wide statements. The first is the statement of net position, which combines and reports all of the Authority's assets and deferred outflows of resources and liabilities and deferred inflows of resources. The second is the statement of activities. It combines and reports all of the Authority's revenues and expenses regardless of when cash is paid or received. These two financial statements demonstrate how the Authority's net position has changed. Net position is the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources and is one way of assessing the Authority's current financial condition. Increases or decreases in net position are good indicators of whether the Authority's financial health is improving or deteriorating over time. Other non-financial factors, such as changes in local economic conditions, regulations, and government legislation, are important in evaluating the Authority's overall financial condition.

The government-wide financial statements are grouped into two categories:

Governmental activities: Include road construction and general engineering administration.

Business-type activities: The Authority's Bus, Automated Skyway Express (the "ASE"), Community Transportation Coordinator (the "CTC"), and Ferry (the "Ferry") operations are classified here. In these activities, the Authority charges customers fees to cover a portion of the cost of providing these goods and services.

Fund Financial Statements

The Authority's fund statements report in greater detail than the government-wide statements on the Authority's most significant funds. A fund is a group of related accounts used to exercise control over specific resources set apart for specific activities. The Authority, like other state and local governments, uses funds to ensure and demonstrate compliance with financial requirements imposed by law, bond covenants, and local administrative and legislative actions. The Authority maintains several individual governmental funds. The General Fund, Special Revenue Fund, and the Capital Projects Fund are presented separately in the governmental fund balance sheet and in the statement of revenues, expenditures, and changes in fund balances. In addition, the Authority maintains several individual proprietary funds. The Bus, Skyway (the "ASE"), Connexion (the "CTC"), and Ferry (the "Ferry") are presented separately in the proprietary fund statement of net position and in the statement of revenues, expenses, and changes in fund net position.

Fund Financial Statements (continued)

All of the Authority's funds are classified in one of the following categories.

Governmental funds tell how basic governmental services were paid for in the short-term as well as what remains for near future spending. These funds account for essentially the same services as those reported as governmental activities in the government-wide statements.

Because the governmental fund view does not include the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances that explains the differences between the two views.

Proprietary funds report on business type operations such as Bus, ASE, CTC, and Ferry, where the fees typically cover a portion of the costs of operations. These statements offer both long and short-term financial information. The Authority's enterprise funds, one type of proprietary fund, are a more detailed reporting of the amounts classified as business-type activities in the government-wide statements.

Notes to the Financial Statements

The notes provide additional information and explanation that is necessary for a full understanding of both the government-wide and fund statements.

Government-wide Financial Analysis

Our analysis of the Authority's financial statements begins below. The statement of net position and the statement of activities, in summary format, follow. These two statements report the net position, the difference between assets and liabilities, as one way to measure financial health. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other non-financial factors such as changes in economic conditions, population growth, regulation, and new government legislation.

To begin our analysis, a summary of the Authority's statement of net position is presented in Table A-1.

Table A-1
Condensed Statement of Net Position

	Governme	ntal Activities	Business-Ty	pe Activities	Total			
	2019	2018	2019	2018	2019	2018

Statement of Net Position 2019 vs. 2018

The Authority's governmental activities show an increase of \$25.2 million or (9.21%) in total assets from 2018. Included in governmental activities are custodial projects which represent the sum total of planning, design and construction of assets that are built for others. In FY 2019, the change in total assets is attributable to an increase in project activity including the First Coast Flyer (Bus Rapid Transit) and JTAMobility Works programs.

Total liabilities for governmental activities increased by \$40.9 million or 17.8%. The primary contributors to the increase were related to major projects initiatives including amounts expended for custodial projects. The Governmental activities change in net position was a net decrease of \$14.8 million from the prior year.

Total assets for the Authority's business type activities decreased \$4.39 million or 1.75% compared to 2018.

Total liabilities for business type activities decreased by \$1.12 million or 5.60% compared to 2018. The primary contributors to the decrease are in in the current liabilities, offset by the increase in long-term liabilities for net pension liabilities and claims payable.

A condensed summary of the Authority's revenues and expenses follows in Table A-2. While the Statement of Net Position shows the change in financial position, the Statement of Activities provides answers as to the nature and source of these changes.

Statement of Activities 2019 vs. 2018

For the Governmental activities, revenues increased \$9.86 million or 39.0% from the prior year. The increase is primarily attributable to other general revenue, while the sales tax revenue for governmental activities constant.

Expenses for Governmental activities increased by \$16.17 million or 48.0% compared to the previous year from \$33.7 million in 2018 to \$49.9 million in 2019. The increased expenditures for transportation and infrastructure projects was the primary contributor to the increase in 2019 as compared to 2018.

Total revenues for Business-type activities decreased by \$3.51 million or 2.37%. The decreased revenue is primarily due to a decrease in capital grants and contributions, offset by an increase in program revenues, intergovernmental revenues.

Expenses for Business-type activities increased by \$10.59 million or 7.90%. The increased expenses is attributable to increased operating expenses across the Authority's multi-modal transportation operations.

Financial Analysis of the Authority's Funds

General Fund Budgetary Highlights

Of the Jacksonville Transportation Authority's Government Funds, the General Fund is the primary fund. Total Sales Tax revenue for the general fund was budgeted at \$2.03 million. Investment earnings was budgeted for \$199k with an actual earnings of \$2.27 million. There was no variance between actual intergovernmental revenue as compared to the Final Budget.

General Government Expenditures for the general fund were budgeted (final) at \$2.30 million; the actual amount of expenditures was \$2.14 million. The general fund expenditures were favorable by \$155K or (6.75%) compared to the final budget, primarily due to increased expenditures in general government.

Capital Assets and Debt Administration

Capital Assets

At the end of Fiscal Year 2019, the Authority showed \$376.9 million in total for the governmental and business-type activities Land, Buildings, Vehicles, Equipment and Construction in Progress as shown in Table A-3.

Debt Administration

In January 2015, the Authority issued \$97,485,000 in local option gas tax revenue bonds, Series 2015. The bonds are used to: (i) finance expenditures relating to the cost of transportation projects identified in the Authority's mobility program, and (ii) fund a debt service reserve. The Series 2015 issue has a final maturity of 2036. The outstanding bond balance as of September 30, 2019 was \$88,005,000. Interest rates range from 3% to 5%. The revenues of the local option gas tax have been pledged as collateral and the payments of the bonds are insured with a municipal bond issue insurance policy. The approximate amount of the pledge is equal to the remaining principal and interest of \$132,702,000. During 2019, \$19,030,199 of local option gas tax revenue was recognized and \$7,811,250 was paid for debt service and fees.

In July 2019, the Authority entered into a note agreement with Regions bank for \$2,600,000 at an interest rate of 2.18%. The first payment on the note is on June 1, 2020 and the note is due June 1, 2026. The outstanding balance of the note as of September 30, 2019 is \$2,600,000 which includes the current portion of \$322,106.

Next Year's Budget

The Jacksonville Transportation Authority is preparing for the future of transportation which will incorporate technology, innovation and automation. This is reflected in the United States Department of Transportation's award of a \$12.5 million BUILD grant, and a \$16.6 million Capital Investment Grant award for the First Coast Flyer Southwest line, along with a Transit Oriented Development planning grant for \$1.0 million, both from the Federal Transit Administration. These funds will enable JTA to initiate the first phase of the Ultimate Urban Circulator (U2C) program, to complete the final leg of the JTA's Bus Rapid Transit system, which will include four routes totaling 57 miles, and to develop our Transit Oriented Development strategy to create a new funding source to help fund the agency of the future.

To ensure JTA is operating efficiently and with a primary focus on safety, we have increased the FY20 operating budget by 4.3% overall versus the FY19 budget. Operating expense increases can be attributed to the addition of the Automation division, which was created to manage the U2C program, planning expenses for regional initiatives, transit oriented development, transition into the Jacksonville Regional Transportation Center at LaVilla, and increased safety and security. The new headquarters of the JTA is scheduled to be completed by 2nd quarter FY20. All of these programs and projects support JTA in its mission to provide safe, reliable, efficient and sustainable multimodal transportation services and facilities for Northeast Florida.

Requests for Information

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest therein. Questions concerning any of the information provided in this report or requests for additional information may be addressed to, Finance Department, Jacksonville Transportation Authority, 100 LaVilla Center Drive, Jacksonville, FL 32204.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended September 30, 2019

Net change in fund balances, total governmental funds	\$	(9,039,421)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense.		
Current year capital outlay		36,963,182
Current year depreciation expense		(4,299)
Changes in other post employment benefits (OPEB) liabilities and deferred inflows/outflows are not recorded in the fund financial statements because it does not require the use of current financial		
resources.		11,142
Loss on sale of capital assets		(260,871)
Costs associated with transportation and infrastructure projects constructed pursuant to agreements with the State of Florida and the City of Jacksonville are held as custodial assets until such time as the projects are completed, accepted and turned over to the State or City.	(40,965,604)
Proceeds from the issuance of debt instruments are recorded as other financing sources in the government funds, however, in the government-wide statements they are recorded as additions to long-term liabilities. Proceeds from debt instruments were as follows:		
Proceeds from capital improvement note Changes in the net pension liability are not reported in the governmental funds because it does not require the use of current financial resources. These balances are reported in the government wide financial statements with the associated deferred inflows and outflows:		(2,600,000)
Net effect of pension expense		(2,481,254)
Some expenses reported in the statement of activities did not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Debt service principal payment		3,275,000
Accrued interest		7,757
Amortization of premium on revenue bonds		404,070
Compensated absences		(82,522)
Change in net position of governmental activities	\$ (14,772,820)

The accompanying notes are an integral part of the financial statements.

NOTE A - REPORTING ENTITY

Established by the Florida Legislature in 1955, the Jacksonville Transportation Authority (the "JTA" or the "Authority") is a public body and corporate agency of the State of Florida under Chapter 349, Florida Statutes. The Authority is empowered to acquire, construct, operate and lease a mass transit system; it may plan, coordinate and recommend methods and facilities for the parking of vehicles and the movement of pedestrians and vehicular traffic; and it may issue evidences of indebtedness and secure payment thereof by pledge of its revenues.

It is also empowered to construct, improve, operate and lease the Jacksonville Expressway System and improvements thereto, to fix and collect rates, rentals and other charges for the services and facilities of such system; and to secure bonds by a pledge of such revenues and all or part of Duval County gasoline tax and sales tax funds pursuant to a lease-purchase agreement between the Authority and the State of Florida Department of Transportation (the "FDOT"). The FDOT maintains responsibility for the operation of the Expressway System with the exception of certain contract maintenance functions.

In fiscal year 2000, the Authority entered into an Interlocal Agreement ("ILA") with the City of Jacksonville (the "City") for the purpose of constructing the roadway and infrastructure projects of the Better Jacksonville Plan (the "Plan" or "BJP"), as defined in the ILA. Pursuant to this agreement, the Authority pledged its sales tax and the City pledged its Constitutional Gas Tax to the payment of bonds issued by the City to implement the Program (the "Bonds"). The Bonds are an obligation of the City and there is no guarantee by the Authority nor are any of the other Authority's revenues or assets pledged for such bonds except the sales tax. The ILA commenced on October 1, 2000 and continues in effect until all of the Bonds have been duly paid in full or defeased in accordance with their terms (see Note G). The terms of the ILA also requires that the City make available its Local Option Gas Tax to the Authority for the Authority's operation of its mass transit division. Any excess funds calculated pursuant to the terms of the ILA (as amended) will be allocated entirely to the Authority. The Authority may use these funds for any lawful purpose within its operating mission.

The Authority is fiscally dependent on the City under Section 14 of the City Charter through approval of its budget and there is a financial benefit/burden relationship between the two entities. Accordingly, the Authority has been determined to be a component unit of the City under Governmental Accounting Standards Board's ("GASB") applicable guidance. The Authority's governing body has seven members. Three members are appointed by the Governor and confirmed by the Senate; three members are appointed by the City's Mayor and confirmed by the City Council; and the seventh member is the District Two Secretary of the Florida Department of Transportation.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE A - REPORTING ENTITY (continued)

As required by generally accepted accounting principles, these financial statements present the Authority and its component units, entities for which the Authority is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the Authority's operation and so data from these units are combined with data of the primary government.

Blended component unit

Jacksonville Transit Management, Inc. (the "JTM") is a not for profit, corporate entity responsible for the management of payroll and related benefits for drivers, mechanics and certain other employees who support the enterprise activities of the Authority. The Authority owns all of the stock of JTM, members of JTM's Board of Directors are appointed by the Authority, services are exclusively provided to JTA, and management of the Authority has operational responsibility for the component unit. The activity of JTM are blended with the primary government, the Authority, and are included in the Authority's enterprise funds.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements include both government-wide and fund level statements. The government-wide statements report on all of the non-fiduciary activities of the Authority. Both the government-wide and fund level statements classify primary activities of the Authority as either governmental activities, which are primarily supported by taxes and intergovernmental revenues, or business-type activities, which are partially supported by user fees and charges.

The government-wide statement of net position reports all assets and liabilities of the Authority, including both long-term assets and long-term debt and other obligations. Net position, the difference between assets, liabilities, and deferred inflows/outflows of resources, are subdivided into three categories: net investment in capital assets, restricted net position; and unrestricted net position. Net position is reported as restricted when constraints are imposed on the use of the amounts either externally by creditors, grantors, contributors, or laws and regulations of other governments, or by law through constitutional provisions or enabling legislation.

The statement of activities reports the degree to which direct expenses of Authority functions are offset by program revenues. Program revenues consist of charges for services, operating grants and contributions and capital grants and contributions. Charges for services refer to amounts received from those who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Direct expenses are those that are clearly identifiable with a specific function or program. The net cost of these programs is funded from general revenues such as taxes, unrestricted intergovernmental revenue and investment earnings.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The fund level statements report on governmental, proprietary and fiduciary activities, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund level financial statements. Since the fund level statements for governmental activities are presented using a different measurement focus and basis of accounting than the government-wide statements' governmental column (as discussed in Note B-1, under Basis of Accounting in this summary of significant accounting policies), a reconciliation is presented on the page following each fund level statement which briefly explains the adjustments necessary to convert the fund level statements into the government-wide governmental column presentations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this is the Bus Fund's payments to the Community Transportation Coordinator (the "CTC") Fund in the amount of \$8,850,143 for services provided to the transportation disadvantaged. Elimination of these charges would distort the direct costs and program revenues reported for these funds.

The Authority's policy is to use restricted resources first, then unrestricted resources, when both are available for use to fund an activity.

Fund structure: The Authority's accounts are maintained in accordance with the principles of fund accounting to enable compliance with limitations and restrictions placed on the use of resources available to it. Under fund accounting, individual funds are established for the purpose of carrying on activities or attaining objectives in accordance with specific regulations, restrictions or limitations. Each individual fund is a self-balancing set of accounts recording assets, liabilities, revenues and expenditures/expenses and fund equity. For financial statement presentation, funds with similar characteristics are grouped into generic classifications as required by accounting principles generally accepted in the United States of America. A brief description of the Major Funds follows:

Governmental funds: These funds report transactions related to resources received and used for those services traditionally provided by governmental agencies. The following are major governmental funds used by the Authority:

<u>General fund</u>: The General Fund is the general operating fund of the Authority. It is used to account for all financial resources except those required to be accounted for in another fund.

Special revenue fund: The Special Revenue Fund receives money from other governmental agencies, primarily the State of Florida (the State) and the City of Jacksonville, to fund major capital improvement projects for those respective governments. Upon completion, ownership of the assets constructed (the accumulated costs of such assets) is transferred to the State or City.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

<u>Capital projects fund</u>: The Capital Projects Fund accounts for and reports resources to be used for the construction of various transportation projects that are not accounted for in the proprietary funds.

In addition to the major governments funds presented above, the Authority has other governmental funds consisting of the remaining non-major funds which is primarily comprised of the Authority's bond activity and restricted funds for specific roadway projects.

Proprietary funds: These funds are used to account for the financing of services to the public on a continuing basis with funding provided by Federal and State grants, local sales and fuel taxes and costs recovered partially through user charges. Major proprietary funds include:

<u>Bus</u>: The Bus Fund is used to account for the operation of the Authority's bus services. Operating revenue is provided through Federal and State grants, local sales and fuel taxes and passenger fares.

<u>ASE</u>: The Automated Skyway Express Fund is used to account for the Authority's local train service. Operating revenue is generally provided through passenger fares. During fiscal 2012, the Authority temporarily suspended the passenger fares to study the effect on ridership and the cost to operate the system. This suspension was in effect for all of fiscal 2019. Presently the Authority has not made a determination as to whether the user fees will be reinstated or if the suspension will become permanent.

<u>CTC</u>: The Community Transportation Coordinator Fund is used to account for paratransit service - Connexion; which provides transportation for disabled and for disadvantaged riders. Operating revenue is provided through governmental grants and other sources.

<u>Ferry:</u> The Ferry Fund is used to account for the St. Johns River Ferry which is the Authority's car and passenger ferry service. The Ferry connects Mayport Village and Fort George Island in Northeast Florida.

Proprietary funds distinguish operating revenue and expenses from nonoperating revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the funds' principal ongoing operation.

The principal operating revenues for the Authority's proprietary funds are charges to customers for sales and services. Since the rate structure of these funds is not sufficient to generate revenues to fully fund operating expenses or to fund acquisition, replacement and future expansion of property and equipment, the Authority is compelled to seek contributions-in-aid from local, state and federal sources, which are reported as nonoperating revenues. Operating expenses include direct expenses of providing the goods or services, administrative expenses and depreciation on capital assets. All expenses not meeting this definition are reported as nonoperating expenses.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The following is a summary of the significant accounting policies applicable to the Authority:

1. Basis of accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide, proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Intergovernmental revenues, grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider are met. Taxes such as sales and gas taxes are recognized based on the date of the underlying sales transactions.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). Measurable is the amount of the transaction that can be determined, available, and collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Generally, the Authority considers a 90 day availability period for revenue recognition.

Major revenues that are determined to be susceptible to accrual include taxes, intergovernmental revenue when eligibility requirements are met, charges for services and investment income. Taxes such as sales and gas taxes are recognized based on the date of the underlying sales transactions and if received within the Authority's period of availability for governmental funds.

Expenditures of governmental funds are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Expenditures related to pensions and other post-employment benefits (OPEB) are recognized when the Authority has made a decision to fund those obligations with current available resources.

2. Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes bank demand accounts, money market funds and investments with an original maturity of three months or less when purchased.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Investments

Investments with a maturity date greater than one year from the purchase date are reported at fair value as determined by quoted market prices, and investments with a maturity date less than one year from the purchase date are reported at amortized cost, which approximates fair value.

In accordance with GASB Codification Section I50 *Investments*, the statement requires additional analysis of fair value if the volume or level of activity for an asset or liability has significantly decreased. Section I50 also requires identification of transactions that are not orderly. The statement establishes a hierarchy of inputs to valuation techniques used to measure fair value with three levels.

- ➤ Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs are inputs-other than quoted prices-included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- ➤ Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security. The implementation of this standard does not have a material effect on the Authority's reporting as the fair value measurement is already maintained by the Authority.

The Authority's pricing for investments is within various levels in the fair value hierarchy.

4. Accounts receivable and due from other governments

Customer accounts receivable consist of amounts owed from private individuals, organizations or agencies of the government for services. The allowance method is used to account for bad debt expense. All accounts receivable balances are shown net of the allowance for uncollectibles. The allowance is based on management's estimates using historical experience and current economic conditions. The allowance for doubtful accounts was approximately \$509,010 for the Bus fund at September 30, 2019, and all other receivables are considered fully collectible in the other funds. In addition, the Authority has recorded a due from other governments of \$26,577,120, which is considered fully collectible.

5. Inventory and prepaid items

Inventory consists of materials and supplies and is reported using the average cost method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and proprietary fund statement of net position. In the governmental funds' statement of revenues, expenditures, and changes in fund balances, prepaid items are included in expenditures for the current period, when purchased.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

6. Custodial assets/custodial liabilities

Custodial assets generally consist of cash, cash equivalents, investments, certain amounts due from the City, and costs of infrastructure assets currently under construction for the benefit of the State and the City. After completion, the City or State, as appropriate, is responsible for maintaining the assets. Therefore, the Authority transfers such assets upon completion of the related construction project.

These assets are reported as custodial projects on the government-wide statement of net position because title of such assets does not transfer until the project is completed and accepted by the State or the City, as appropriate.

As these assets are being held in an agency-like capacity by the Authority, the revenues associated with the funding of these projects are reported as custodial projects and represent amounts due to other governments (liabilities) on the government-wide statement of net position, reflecting the Authority's obligation to the State or City.

7. Capital assets

Capital assets are stated at historical cost and are defined as assets with an initial individual cost of more than \$3,000 and an estimated useful life exceeding one year.

The cost of improvements and replacements, which extend the useful lives of assets, are capitalized. Repairs and maintenance costs, which do not improve or extend the useful life of the respective assets, are charged to expense. Depreciation commences when the assets are placed in service. Property and equipment are depreciated by the straight-line method over the estimated useful lives of the assets as follows:

	Years
Land improvements	5 - 10
Buildings and improvements	10 - 40
Vehicles	3 - 25
Furniture and office equipment	3 - 12
Other equipment	3 - 10

As of September 30, 2019, there were no infrastructure assets owned by the Authority other than the custodial projects being constructed for other parties mentioned in Note E.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Compensated absences

Employees accrue personal leave, or compensated absences, by prescribed formula based on length of service. All compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements as accrued liabilities. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The value of accumulated benefits earned by employees, that may be used in subsequent years or paid upon termination or retirement, is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends.

9. Unearned/unavailable revenues

Payments are recorded as unearned revenue in the government-wide and fund financial statements which have been received but which have not met revenue recognition requirements (not earned). In addition, amounts related to governmental fund receivables that are measurable, but not received within the Authority's period of availability, are recorded as a deferred inflow of resources entitled unavailable revenue in the governmental fund financial statements.

10. Claims liability

Provision for injury and damage losses are charged to operations based on the estimated ultimate cost of settling incurred claims and incurred but not reported claims using past experience adjusted for current trends.

11. Restricted assets

Certain assets of the Authority's governmental and proprietary funds are classified as restricted assets on the financial statements because their use is limited to the construction of capital assets or custodial projects through bond or loan covenants and other legal restrictions.

12. Deferred outflows/inflows of resources

Deferred outflows of resources represent a consumption of net position that applies to a future period, and as such will not be recognized as an outflow of resources (expense) until that time. These items are reported as a category below the assets on the Statement of Net Position.

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and as such will not be recognized as an inflow of resources (revenue) until that time. These items are reported as a category below the liabilities on the Statement of Net Position.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

12. Deferred outflows/inflows of resources (continued)

The Authority reports deferred outflows and deferred inflows of resources that result from the activity in its defined benefit pension plans and other post-employment benefits. These activities include differences between expected and actual experience, and changes in actuarial assumptions, or other inputs. In addition, the Authority records a deferred inflow in its governmental funds for resources that are not available.

13. Net position and fund balances

In the government-wide financial statements and in the proprietary fund statements, net position is classified in the following categories:

Net investment in capital assets: This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that is attributable to the acquisition, construction or improvement of these assets, if any, reduce this category.

Restricted net position: This category represents the net position of the Authority, which is restricted by creditors, grantors or laws and regulations or legally enforceable enabling legislation which a party external to the Authority (such as citizens, public interest groups, or the judiciary) can compel the Authority to honor.

Unrestricted net position: This category represents the net position of the Authority, which is not restricted for any project or other purpose.

Governmental funds report fund balance either as non-spendable or spendable. The spendable balance is further classified as restricted, committed, assigned, or unassigned, based on the extent to which there are external or internal constraints on the spending of these fund balances are as follows:

Nonspendable fund balance: Nonspendable fund balances are amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted fund balance: This category represents the fund balance of the Authority, which is restricted by creditors, grantors or laws and regulations or legally enforceable enabling legislation which a party external to the Authority (such as citizens, public interest groups, or the judiciary) can compel the Authority to honor.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

13. Net position and fund balances (continued)

Committed fund balance: Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the Board of Directors through passage of a resolution. Committed amounts cannot be used for any other purpose unless the Authority removes those constraints by taking the same type of action.

Assigned fund balance: Assigned fund balances are amounts that are constrained by the Authority's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by: (a) the Board of Directors or (b) the Chief Executive Officer.

Unassigned fund balance: Unassigned fund balance is the residual classification for the General Fund. Unassigned fund balance also includes any residual deficit fund balance of other governmental funds.

The Authority's policy is to expend resources in the following order: restricted, committed, assigned and unassigned.

14. <u>Use of estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions, such as the provisions for uninsured losses and pension costs, that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTE C - DEPOSITS AND INVESTMENTS

1. Cash and cash equivalents

Custodial credit risk - deposits: In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority's policy to address custodial credit risk requires the Authority to maintain all deposits in qualified public depositories as defined in Chapter 280.02, Florida Statutes. Deposits whose value exceeds the limits of federal depository insurance are entirely insured or collateralized pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act (the Act). Under this Act, financial institutions which are qualified as public depositories place with the State Board of Administration, securities which have a market value equal to 50% of the average daily balance for each month of all public deposits in excess of applicable deposit insurance. The Public Deposit Security Trust Funds have a procedure to allocate and recover losses in the event of default or insolvency. When public deposits are made in accordance with Chapter 280, no public depositor shall be liable for any loss thereof. At September 30, 2019, the Authority's demand deposits with banks were \$21,306,883 and its reported balances were \$19,365,369. The pension trust fund reported \$712,534 for cash and cash equivalents for the bank and account balances.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE C - DEPOSITS AND INVESTMENTS (continued)

2. <u>Investments</u>

The Authority's Board approved its written investment policy on August 28, 2014. The policy complies with Florida Statute 218.415. The investment policy authorizes the following investments: Money market mutual funds, Florida Local Government Surplus Funds Trust Funds, United States Government Securities, United States Government Agencies, interest-bearing time deposits or savings accounts, repurchase agreements, commercial paper of a high rating A-1 P-1 as provided by one of the nationally recognized rating agencies, Standard & Poor's Corporation (S & P) or Moody's, fixed income mutual funds, and intergovernmental investment pools that are authorized pursuant to the Florida Interlocal Cooperative Act. The policy also provides limits on individual issuers and rating requirement standards. Outside portfolio managers must review the portfolios they manage to ensure compliance with the Authority's diversification guidelines on an ongoing basis.

Investments are recorded at fair value (quoted market price or the best available estimate thereof), with the exception of the investments held by the Florida Treasury Investment Pool. The investments held by the Florida Treasury Investment Pool are recorded at amortized cost, which is consistent with the treatment of "2a-7 like" pool securities.

As of September 30, 2019, the Authority has restricted and unrestricted investments of \$80,975,037, money markets and bank accounts of \$36,437,870, and \$635,052 related to investments for the pension trust. The following is a schedule of investments by type:

lavos atras ant Toras	Government-	Pension Trust
Investment Type	wide	Fund
U.S. Treasury bills/notes	\$ 36,317,475	\$ -

Total investments	\$ 117,412,907	\$ 635,052

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE C - DEPOSITS AND INVESTMENTS (continued)

3. Interest rate risk and price level

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of an investment's fair value is to change in market interest rates. The Authority's investment policy limits the investing of current operating funds to investments with maturities of not more than 12 months. Investment maturities for bond reserves, construction funds, and other non-operating funds are limited to 5 years with the weighted average maturity not to exceed 3 years. This policy limits investment maturities as a means of managing the Authority's exposure to fair value losses arising from increasing interest rates. GASB Codification Section I50 *Investments*, establishes a hierarchy of inputs to valuation techniques used to measure fair value:

- ➤ Level 1 quoted market prices in active markets
- ➤ Level 2 inputs other than quoted market prices that are observable either directly or indirectly
- ➤ Level 3 unobservable inputs

The following table presents the investments as of September 30, 2019. The Authority had the following debt-type investments and maturities measured at fair value. Investments are recorded at fair value quoted market price or the best available estimate thereof. The pricing for investments is shared between levels in the fair value hierarchy.

		Remain	ing r	maturity (in y	ears)		
	Less than	1-5		6-10	More t	han	Fair
Investment type	 1 year	years		years	10 years		 value
U.S. Treasury bills/notes	\$ 22,519,957	\$ 13,797,518	\$	-	\$	-	\$ 36,317,475

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE C - DEPOSITS AND INVESTMENTS (continued)

4. Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As a means of limiting its exposure to credit risk, the Authority's policy is to strictly limit its investments in permitted investment vehicles authorized by the policy, which are generally recognized as elements of a conservative investment portfolio that carries minimal credit risk exposure. U.S. Government securities are backed by the full faith and credit of the U.S. Government, therefore a credit rating is not assigned. The Authority's investments are rated as follows:

	S&P's Credit	
Investment type	Rating	 Fair Value
U.S. Treasury notes	AA+	\$ 35,577,727
U.S. Treasury notes	A-1+	739,748

		\$ 117,412,907

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE C - DEPOSITS AND INVESTMENTS (continued)

5. Custodial credit risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy requires securities to be held by a third party custodian and be properly designated as an asset of the Authority and held in the Authority's name. As of September 30, 2019, the Authority's investments were held with a third-party custodian as required by the Authority's investment policy.

The investment policy authorizes the following maximum permissible concentrations based on book values: United States Government Securities (100%), United States Government Agencies (80%), interest bearing time deposits or savings accounts (25%), repurchase agreements (25%), commercial paper (25%) of a high rating A-1 P-1 as provided by one of the nationally recognized rating agencies, Standard & Poor's corporation (S & P) or Moody's, fixed income mutual funds (25%), and intergovernmental investment pools (25%) that are authorized pursuant to the Florida Interlocal Cooperative Act.

The policy further allows that 100% of the portfolio can be comprised of any of the following instruments: money markets mutual funds, Florida Local Government Surplus Funds Trust Funds, United States Government Securities and Federal Instrumentalities.

Investments that represent more than 5% of the Authority's investments are listed below:

	Fair	% of
Investment types	value	Portfolio
Money market funds	\$ 36,437,870	31%
U.S. Treasury	36,317,475	31%
Corporate note	14,420,938	12%
Local government investment pool	9,030,906	8%
Commercial paper	5,686,522	5%
	\$ 101,893,711	87%

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE F - INTERFUND BALANCES AND TRANSFERS

During the normal course of operations, numerous transactions occur between funds. The following is a schedule of interfund balances at September 30, 2019:

					Rec	eivable Fund	:			
			Capital							
	General	F	Projects	Bus		ASE		CTC	Ferry	
	Fund		Fund	Fund		Fund		Fund	Fund	Total
Payable Fund:										
Special revenue fund	\$ 3,975,914	\$	43,235	\$ 104,413	\$	-	\$	-	\$ -	\$ 4,123,562
Capital projects fund	642,157		-	6,099,175		27,550		-	29,018	6,797,900
Other government fund	-		50,264	-		-		-	-	50,264
Enterprise fund - Bus	26,292,550		-	-		2,547,405		7,989,893	-	36,829,848
Enterprise fund - ASE	7,386,182		-	-		-		589,646	-	7,975,828
Enterprise fund - CTC	9,661,647		619,820	-		-		-	-	10,281,467
Enterprise fund - Ferry	1,530,163		-	1,097,831		14,339		3,801	 -	2,646,134
	\$ 49,488,613	\$	713,319	\$ 7,301,419	\$	2,589,294	\$	8,583,340	\$ 29,018	\$ 68,705,003

The outstanding balances between funds result mainly from the time lag between the dates expenses are incurred and payments between funds are made, which are expected to be collected in subsequent years.

Transfers of net resources from a fund receiving revenue to a fund in which the resources are to be expended are recorded as operating transfers.

Transfers to

		Transfers to										
	Ca	pital								Other		
	Pro	oject							Go	vernment		
	F	und	(CTC Fund	<u></u> F	erry Fund		ASE Fund		Funds		Total
Transfer from General fund	\$	<u>-</u>	\$	-	\$	-	\$	_	\$	5,000	\$	5,000
Enterprise fund - Bus				3,114,430		1,611,057		5,809,418		<u>-</u>		10,534,905
	\$		\$	3,114,430	\$	1,611,057	\$	5,809,418	\$	5,000	\$	10,539,905

Interfund transfers were made from the Bus fund to support the operating activities of the Skyway, Connexion, and Ferry and a small transfer was made between the General fund to the Other Government funds.

NOTE G - LONG TERM LIABILITIES (continued)

Local option gas tax revenue bonds

In January 2015, the Authority issued \$97,485,000 in local option gas tax revenue bonds, Series 2015. The bonds are used to: (i) finance expenditures relating to the cost of transportation projects identified in the Authority's mobility program, and (ii) fund a debt service reserve. The Series 2015 issue has a final maturity of 2036. The outstanding bond balance as of September 30, 2019 was \$88,005,000. Interest rates range from 3% to 5%. The revenues of the local option gas tax have been pledged as collateral and the payments of the bonds are insured with a municipal bond issue insurance policy. The approximate amount of the pledge is equal to the remaining principal and interest of \$132,702,000. During 2019, \$19,030,199 of local option gas tax revenue was recognized and \$7,811,250 was paid for debt service and fees.

The Authority recognized two months of accrued interest in the amount of \$733,375 for an interest payment due on February 1, 2020. The next principal payment in the amount of \$3,405,000 due on August 1, 2020. The current portion of the revenue bonds payable including the current amortization of the bond premium due within one year is \$4,062,267 as presented in the Statement of Net Position, governmental activities.

Debt Maturities

Years ending September 30:	Principal	 Interest	 Total
2020	\$ 3,405,000	\$ 4,400,250	\$ 7,805,250

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE G - LONG TERM LIABILITIES (continued)

Regions note payable

In July 2019, the Authority issued a new general obligation debt in the form of a loan recognized in the governmental funds. The loan is used to finance the expenditures relating to costs for designing, engineering, financing, acquiring, equipping and constructing upgrades to the Acosta Bridge lighting system. The Series 2019 issue has a final maturity of 2026. The outstanding loan balance as of September 30, 2019 was \$2,828,725. The interest rate is 2.18%. Upon the occurrence of an Event of Default, the principal and interest payments due on the Note shall be accelerated and become immediately due. Any amounts due under the Note or this agreement not paid when due shall bear interest at a default rate equal to the interest rate on the Note plus 6% per annum from and after the date due until paid.

Under the loan documents, \$2,656,680 of the Authority's reserve funds (including earnings) were deposited into a separately designated collateral account with the secured party Regions Capital Advantage Bank as pledged revenue for the loan. At all times during the term of the loan, JTA will maintain on deposit in the collateral account an amount equal to no less than the sum of the outstanding principal of the note, plus the highest annual amount of one year's interest on the note (minimum account balance). The Authority may withdraw amounts from the collateral account as long as the minimum account balance remains on deposit in the account following such withdrawal. No proceeds of the loan shall be permitted to be deposited at any time into the collateral account.

The Authority recognized three months of accrued interest in the amount of \$14,076 for an interest payment due on December 1, 2019. The first principal payment in the amount of \$322,106 is due on June 1, 2020, representing the current portion of the note payable due within one year as presented in the Statement of Net Position for governmental activities.

Debt Maturities

Years ending September 30:	Principal Interest		Interest		Total	
2020	\$ 322,106	\$	51,799	\$	373,905	
2021	359,478		49,658		409,136

NOTE H - OPERATING LEASE

On July 28, 2015, the Authority entered into an operating lease for the Church Street premises, an 18-month period expiring on January 31, 2017. On December 20, 2017, a second amendment was executed to further extend the terms of the lease to expire on January 31, 2020. For the year ended September 30, 2019, total rental expense was \$51,200.

On July 1, 2014, the Authority entered into a 60 month operating lease for the 121 Atlantic Place expiring on November 30, 2019, with a three-year renewal option. For the year ended September 30, 2019, total rental expenditure cost for the building lease was \$624,420.

On October 31, 2018, the Authority entered into 25 year operating lease for premises located on FSCJ's Kent Campus at 3939 Roosevelt Boulevard for transit stop operations with no consideration given. The lease will expire on October 31, 2043. For the year ended September 30, 2019, total rental expense was \$0.

On October 3, 2018, the Authority entered into a 25 year operating lease for premises located at 96076 Lofton Square Court for transit stop operations with no consideration given. The lease will expire on October 2, 2043, with a one period renewal option for a period of up to 25 additional years. For the year end September 30, 2019, total rental expense was \$0.

The future minimum lease payments for these leases are as follows:

					FSC	J (Kent)				
					Camp	us 3939				
Year Ending			12	1 Atlantic	Roc	sevelt	9607	6 Lofton

2023		-		-		-		-		
2024		-		-		-		-		

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE I - RISK MANAGEMENT

The Authority is exposed to various risks of loss related to injury and damage claims arising from operations. The Authority is self-insured for general liability and automobile liability and purchases stop loss insurance which caps the Authority's liability at \$300,000 per claim. Stop loss insurance is limited to \$2 million for product liability (automobile) and \$1 million for personal injury. The Authority purchases commercial insurance for group health insurance, workers compensation and destruction of property.

Claim liabilities include an amount for known claims and claims that have been incurred but not reported (IBNRs) for which a loss is probable. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts and other economic and social factors. The liability is reported in the Enterprise Funds. During fiscal year 2019, individual injury and damage claims in excess of \$200,000 and \$300,000 per occurrence were subject to the Florida Sovereign Immunity Law.

Changes in the estimated liability for the self-insurance program consisted of the following:

	Current year							
		(claims and					
Fiscal year ended	Beginning	(changes in		Claims		Ending	
September 30,	Balance		estimates		paid		Balance	
2017	\$ 4,162,475	\$	952,414	\$	876,450	\$	4,238,439	
2018	\$ 4,238,439	\$	1,556,892	\$	785,326	\$	5,010,005	
2019	\$ 5,010,005	\$	2,119,004	\$	1,561,663	\$	5,567,346	

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE J - COMMITMENTS AND CONTINGENCIES

Construction commitments: The Authority as a whole had construction and construction-related commitments related to the Custodial Projects discussed at Note E amounting to approximately \$108,980,256 at September 30, 2019.

JTAMobility Works Program: As of July 29, 2014, the Authority and the City of Jacksonville entered into an interlocal agreement (ILA) for the purpose of constructing roadway projects as defined in the JTAMobility Works Program CIP plan. As of the effective date of the ILA, the City of Jacksonville pledged its Duval Authority local option gas tax revenues to pay the debt service on transportation revenue bonds issued by the Authority to fund such roadway projects under the JTAMobility Works Program. All such bonds are revenue obligations, secured solely by the Local Option Gas Taxes collected in Duval County, and there is no guarantee by the City or any other Authority revenues or assets pledged for such bonds, see Note G.

Better Jacksonville Plan: As of October 1, 2000, the Authority and the City of Jacksonville entered into an ILA for the purpose of constructing roadway projects as defined in the Better Jacksonville Plan. As of the effective date of the ILA, the Authority pledged its Duval County sales tax revenues to pay the debt service on transportation revenue bonds issued by the City of Jacksonville to fund such roadway projects under the Better Jacksonville Plan. All such bonds are revenue obligations, secured solely by the Transportation Discretionary Sales Surtax and Constitutional Gas Taxes collected in Duval County, and there is no guarantee by the Authority nor are any of the Authority revenues or assets pledged for such bonds, see Note G.

Grant funding: Federal and State grant awards are audited in accordance with the requirements of the Uniform Guidance and the Florida Single Audit Act. These grant awards are subject to audit by the respective grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure resources for allowable purposes. Any disallowance resulting for a federal audit may become a liability of the Authority. It is management's opinion that no material liabilities will result from any such grantor audits.

Union contracts: At September 30, 2019, the Authority employed a total of 778 employees. The employees covered under union contracts represents 69% or 540 of the Authority's total employees. The Amalgamated Transit Local Union No. 1197 covers bus operators. The three year contract, representing 356 employees, expires September 30, 2020.

The American Federation of State, County and Municipal Employees Florida Council 79, (AFSCME), covers 25 dispatchers and operations supervisors. This three year contract expires May 20, 2022.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE J - COMMITMENTS AND CONTINGENCIES (continued)

There are 146 mechanics and utility employees who operate under a contract with the International Association of Machinists and Aerospace Workers Union No. 759. The three year contract expires November 2, 2020. Additionally, under the same Union, there are 13 customer service employees that are covered under a separate three year contract which expires January 18, 2020.

Purchase commitment: On November 25, 2014 the Authority entered into a 15-year purchase agreement with a third party vendor for compressed natural gas. This agreement was amended on September 30, 2016. The amended agreement requires the purchase of compressed natural gas starting at a rate of \$1.257 per diesel gas equivalent (DGE) and increasing to \$1.346 per DGE. There is a minimum annual volume that must be purchased starting at 126,563 DGEs and increasing to a total of 843,750 DGEs at the end of the 15 year period. The Authority has estimated the 15 year cost of this agreement, based on the minimum purchase requirements, will be approximately \$23.5 million (including infrastructure costs), as compared to a cost of \$28.5 if diesel fuel continued to be used.

On November 16, 2017 the Authority entered into an agreement with a third party supplier for Design-Build services on Kernan Boulevard from Atlantic Boulevard to McCormick Road. This agreement is for the design and construction of the roadway widening project to reconstruct Kernan Boulevard from a four-lane to a six-lane urban roadway between Atlantic Boulevard and Matthew Unger Drive and four lanes from Matthew Unger Drive to McCormick Road. The road will have raised medians, curb and gutter, sidewalks, bike lanes, a 12-foot multi-use path on the eastside of the road and utility improvements. Total compensation under this agreement is \$21,647,614 with completion anticipated in July 2020.

On March 18, 2019, the Authority entered into a five-year agreement with a third party vendor for U2C Technology Integration Consulting Services. This agreement is intended to advance the Authority's goal of Transformative Mobility Solutions by conceptualizing, implementing and developing the autonomous vehicle technology system Ultimate Urban Circulator (U²C). The U²C will be an integrated autonomous vehicle system in downtown Jacksonville, serving as a circulator and people mover. Consulting services will include developing the U²C framework as it pertains to Data, Communications, Cybersecurity and Vehicle Locations Systems. Total compensation under this agreement is \$10,000,000.

On May 24, 2019, the Authority entered into an agreement with a third party supplier for the manufacture of heavy duty buses. This agreement was conducted as a State Schedule for the State of Florida with the guidance of the Florida Department of Transportation. This agreement is instrumental as it gives the ability to any government entity within the State of Florida the opportunity to procure heavy-duty buses in an expeditious manner. This contract set a price for a base bus while including the ability for each entity to add additional options that will provide them a bus that fits their entities individual business model. This is an indefinite delivery, indefinite quantity contract that is effective for two years with three (3) one year options to renew.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS

Pension plan of the primary government: The administrative employees of the Authority participate in the Florida Retirement System (the "FRS") defined benefit pension plan, a cost-sharing multiple-employer public employee retirement system administered by the State of Florida Department of Administration, Division of Retirement, to provide retirement and survivor benefits to participating public employees. Chapter 121, Florida Statutes, establishes the authority for participant eligibility, contribution requirements, vesting eligibility and benefit provisions. Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan ("Investment Plan") alternative to the FRS Pension plan, which is administered by the State Board of Administration ("SBA").

Benefits are determined by category and length of service and the applicable contribution rates are as follows:

Membership category	Benefit	Vesting	July 1, 2017 Employer contribution rate	July 1, 2018 Employer contribution rate	July 1, 2019 Employer contribution rate
Regular	1.6% times years of service times average compensation (8 highest years) if age 65 or 33 years of services at any age.	Choice Pension - after 6 years of creditable service if actively employed on July 1, 2001 or 8 years if initially enrolled on or after July 1, 2011 Investment - after 1 year of creditable service.	7.92%	8.26%	8.47%
Senior Management	2.0% times years of service times average compensation (8 highest years) if age 65 or 33 years of services at any age.	Choice Pension - after 6 years of creditable service if actively employed on July 1, 2001 or 8 years if initially enrolled on or after July 1, 2011 Investment - after 1 year of creditable service.	22.71%	24.06%	25.41%
Deferred Retirement Option Program (DROP)	Accumulated FRS benefits earn 1.3% effective annual interest compounded monthly for a period up to 60 months after becoming vested, having reached normal retirement date, and remaining employed.	Subject to normal system vesting provision for membership category	13.26%	14.03%	14.60%

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

All of the above employer contribution rates include 1.66% for a post-retirement health insurance subsidy as part of the Health Insurance Subsidy (HIS) Plan. The Regular and Senior Management rates also include .06% for an administrative and educational fee.

Participating employer contributions are based upon actuarially determined state-wide rates established by the State of Florida, that expressed as percentages of annual covered payroll are adequate to accumulate sufficient assets to pay benefits when due. Employee contribution rates are 3% for regular employees and senior management. There is no employee contribution for employees enrolled in DROP.

Contributions to the FRS were \$1,382,829 for the year ended September 30, 2019, which was equal to the required contributions for each year.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida 32399-1560.

Governmental Accounting Standards Board Statement No. 68

As a participating employer, the Authority applies GASB Statement No. 68, as amended, *Accounting and Financial Reporting for Pensions*, which requires employers participating in cost-sharing multiple employer defined benefit pension plans to report the employers' proportionate share of the net pension liabilities and related pension amounts of the defined benefit pension plans.

The Florida Retirement System Pension Plan

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:</u>

At September 30, 2019, the Authority reported a net pension liability of \$12,219,934 for its proportionate share of the plan's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019. The Authority's proportionate share of the net pension liability was based on the Authority's 2018-19 fiscal year contributions relative to the 2017-18 fiscal year contributions of all participating members. At June 30, 2019, the Authority's proportionate share was .03548% of the net pension liability which was .00044% increase from its proportionate share measured as of June 30, 2018.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

The Florida Retirement System Pension Plan (continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions (continued):

For the fiscal year ended September 30, 2019, the Authority recognized the FRS Plan pension expense of \$2,139,060. In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred
	(Outflow of		Inflow of
Description	F	Resources	F	Resources
Difference between expected and actual experience	\$	724,799	\$	7,584
Change of assumptions		3,138,605		-
Net difference between projected and actual earnings				
on FRS pension plan investments		-		676,071
Change in proportion and differences between Authority				
FRS contributions and proportional share of contributions		426,585		-
Authority FRS contributions subsequent to the				
measurement date		283,293		
	\$	4,573,282	\$	683,655

The deferred outflows of resources related to pensions, totaling \$283,293 resulting from Authority contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	L	eterred)			
Years ending	C	Outflows/			
September 30:	(inflows), net				
2020	\$	656,814			
2021		568,302			
2022		526,543			
2023		512,230			
2024		493,415			
Thereafter		849,031			

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions which were based on the results of an actuarial experience study for the July 1, 2013 - June 30, 2018 experience observation period:

Inflation 2.60%

Salary Increases 3.25%, average, including inflation

Investment rate of return 6.90%

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018. Additional details are provided in the valuation report.

The long-term expected rate of return assumption of 6.90% used in GASB discount rate calculations consists of two building block components: 1) a real return of 4.3%, which is consistent with one capital market outlook model developed during 2019 by the outside investment consultant to the Florida State Board of Administration; 2) a long-term average annual inflation assumption of 2.60% as most recently adopted in October 2019 by the FRS Actuarial Assumption Conference. The table below shows a summary of Milliman's in-house assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the 2.60% inflation assumption. These assumptions are not based on historical returns, but instead are based on forward looking capital market economic model.

		Annual	Compound annual	
	Target	Arithmetic	(geometric)	Standard
Asset Class	Allocation (1)	return	return	deviation
Cash equivalents	1%	3.3%	3.3%	1.2%
Fixed income	18%	4.1%	4.1%	3.5%
Global equity	54%	8.0%	6.8%	16.5%
Real estate (property)	10%	6.7%	6.1%	11.7%
Private equity	11%	11.2%	8.4%	25.8%
Strategic investments	6%	5.9%	5.7%	6.7%
Total	100%			
Assumed inflation - mean			2.6%	1.7%

Note: (1) As outlined in the Plan's investment policy

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 6.90%. The FRS Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

<u>Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes</u> in the Discount Rate:

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.90%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90%) or 1 percentage-point higher (7.90%) than the current rate:

	1% Decrease Current rate		1% Increase
	5.90%	6.90%	7.90%
Net Pension Liability - FRS	\$ 21,124,196	\$ 12,219,934	\$ 4,783,368

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

The Retiree Health Insurance Subsidy Program (HIS)

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple employer defined benefit pension plan which was established and administered in accordance with Section 112.363, Florida Statutes. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS program. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u>. For the Authority's fiscal year ended September 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum HIS payment is \$30 and the maximum HIS payment is \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive HIS Plan benefits, a retiree under a State administered retirement system must provide proof of health insurance coverage, which may include Medicare.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

The Retiree Health Insurance Subsidy Program (HIS) (continued)

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2019, the contribution rate was 1.66% of payroll pursuant to section 112.363, Florida Statutes. The Authority contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The Authority's contributions to the HIS Plan were \$284,140 for the year ended September 30, 2019 which was equal to the required contributions.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions:

At September 30, 2019, the Authority reported a net pension liability of \$5,615,556 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined based on the actuarial valuation date of July 1, 2018 and update roll-forward procedures were used to determine the liability. The Authority's proportionate share of the net pension liability was based on the Authority's 2018-19 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2019, the Authority's proportionate share was .0502%, which was an increase of .00241% from its proportionate share measured as of June 30, 2018.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

The Retiree Health Insurance Subsidy Program (HIS) (continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions (continued):

For the Authority's fiscal year ended September 30, 2019, the Authority recognized the HIS Plan pension expense of \$342,194. In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following resources:

Deferred		Deferred	
(outflow of		inflow of
r	esources		resources
\$	68,207	\$	6,876
	650,228		458,970
	3,624		-
	699,861		3,998
	67,829		
\$	1,489,749	\$	469,844
	r	outflow of resources \$ 68,207 650,228 3,624 699,861 67,829	outflow of resources \$ 68,207 \$ 650,228 3,624 699,861 67,829

The deferred outflows of resources related to pensions, totaling \$67,829 for 2019 resulting from Authority contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		eferred)
Years ending September	0	utflows/
30:	(Inf	lows), net
2020	\$	232,315
2021		206,722
2022		176,086
2023		112,879
2024		99,353
Thereafter		124 723

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

The Retiree Health Insurance Subsidy Program (HIS) (continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions (continued):

<u>Actuarial Assumptions</u>. The total pension liability as of June 30, 2019 measurement date was determined using the following actuarial assumptions which were based on the certain results of an actuarial experience study of the FRS completed in 2019 for the period July 1, 2013 - June 30, 2018:

Inflation 2.60%

Salary increases 3.25%, average, including inflation

Municipal bond rate 3.50%

Mortality rates were based on the Generational RP-2000 with Projection Scale BB. Additional details are provided in the valuation report.

<u>Discount Rate</u>: The discount rate used to measure the total pension liability relating to the HIS Plan was 3.50% for 2019. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

<u>Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>: The following presents the Authority's proportionate share of the net pension liability, for the HIS Plan, calculated using the discount rate of 3.50%, as well as what the Authority's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1 percentage-point lower (2.50%) or 1 percentage-point higher (4.50%) than the current rate:

	1%	1% Decrease		Current rate	1	% Increase	
		2.50%	3.50%		0% 3.50% 4.5		4.50%
Net pension liability - HIS	\$	6,410,445	\$	5,615,556	\$	4,953,504	

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

Pension plans of Jax Transit Management Corp. (JTM)

JTM (a component unit) makes contributions to a multi-employer defined benefit pension plan for the JTM employees (mechanics) represented by the International Association of Machinists union. JTM also maintains two single-employer defined benefit pension plans, which cover general (salaried) employees and bus operators (drivers) for the Authority's proprietary activities.

International Association of Machinists (IAM) Pension Plan

Mechanics and other technicians whose job classification is within the bargaining unit represented by the International Association of Machinists ("IAM") union participate in the IAM defined benefit pension plan, a cost-sharing multiple-employer retirement plan administered by the union to provide retirement and survivor benefits to participating employees. As of September 30, 2019, 146 of the Authority's employees were covered under this plan. The plan documents for the IAM National Pension Fund establish the authority for participant eligibility, contribution requirements, vesting eligibility and benefit provisions. The plan does not issue a publicly available financial report.

Benefits are determined by category and length of service as follows:

Membership Category	Retirement Benefit	Vesting	January 1, 2019 Employer Contribution rate	January 1, 2018 Employer Contribution rate	January 1, 2017 Employer Contribution rate
Regular	Benefit calculated based upon the participants age of retirement, the participants amount of credited service, the contribution rates paid by contributing employer on the participants behalf, and the form of payment chosen by the participant at retirement.	After 5 years of vesting service or five years of future service credit	\$3.90 per hour	\$3.90 per hour	\$3.90 per hour

Participating employer contributions are based upon the collective bargaining agreement for mechanics and utility employees in effect through November 2, 2020 that, expressed as an hourly rate, are adequate to accumulate sufficient assets to pay benefits when due. No employee contributions are required.

International Association of Machinists (IAM) Pension Plan (continued)

The payments made to the IAM plan in the years ended September 30, 2019, 2018, 2017 and 2016 were \$1,148,965, \$1,156,396, \$1,147,357, and \$1,055,119 respectively, which were equal to the required contributions for each year.

Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp.

Salaried Plan description: The Authority contributes to the Jax Transit Management Corp. (JTM) Retirement Plan for Salaried Employees, a single-employer defined benefit plan which covers all salaried employees on JTM's payroll whose job classifications are not represented by unions. The Salaried Employees plan was established by JTM on January 1, 1963. A committee comprised of three JTM employees and three employees of the Authority administer the Salaried Employees Plan.

Drivers Plan description: The Authority also contributes to the Amalgamated Jax Transit Management, Corp. Pension Plan, a single-employer defined benefit plan which covers all full and part-time bus operators on JTM's payroll whose job classification is within the bargaining unit represented by the Amalgamated Transit Union Local 1197. The Drivers Plan was established on May 1, 1964 by JTM. The plan is administered by a six-member Board of Control. The Authority has no fiduciary responsibility for the plan assets of the Drivers plan, thus the net position of this plan is not reported as a pension trust fund. The plan issues an available financial report which may be obtained by writing or calling the plan administrator, Reliance Trust at 1000 Abernathy Rd. NE, Suite 400, Atlanta GA 30328-5634 or (800) 749-0752.

As of December 31, 2018, employee membership data related to both of these plans was as follows:

139

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE K - EMPLOYEE BENEFITS (continued)

Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp. (continued)

The Salaried Plan's funding policy provides for annual employer contributions based on funding requirements from section 412 and 430 of the Internal Revenue Code (IRC). Specifically, an actuarial valuation is done under ERISA to measure the unfunded liability (or surplus) at the end of the plan year and the Minimum Required Contribution (MRC) is determined. This MRC is the minimum amount that the sponsor needs to contribute during the plan year that is sufficient to accumulate sufficient assets to pay benefits when due. Significant actuarial assumptions used to compute contribution requirements are based on the requirements of the IRC and it changes every year. Employees contribute 3% to the salaried plan as well.

The Driver Plan's funding policy provides for annual employer contributions based on funding requirements from section 412 and 430 of the Internal Revenue Code (IRC). Specifically, an actuarial valuation is done under ERISA to measure the unfunded liability (or surplus) at the beginning of the plan year and the Minimum Required Contribution (MRC) is determined. This MRC is the minimum amount that the sponsor needs to contribute during the plan year that is sufficient to accumulate sufficient assets to pay benefits when due. Significant actuarial assumptions used to compute contribution requirements are based on the requirements of the IRC and it changes every year. In addition, there is also employee contributions upon the ratification of the agreement dated November 6, 2017. New hires contribute 3% of their hourly wages to their pension as employee contribution. New hires were eligible to participate starting in July 2018.

Investments - Salaried Employee Plan

A committee comprised of three JTM employees and three Authority employees administers the Salaried Employee Plan. The committee has the authority to establish and amend the investment policy including decisions regarding asset allocation. It is the policy of the committee to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the committee's adopted asset allocation policy as of September 30, 2019:

Target Allocation
41%
7%
52%
100%

The expected return on investments is determined from a building block approach that includes components for inflation, real risk-free return, and risk premium. It is calculated by summing the weighted average of the total return for each asset class.

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE L - OTHER POST-EMPLOYMENT BENEFITS

Pursuant to Section 112.081, Florida Statutes, the Authority is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. This results in an implicit subsidy to retirees.

Plan description: The Authority's OPEB Plan is a single employer defined benefit healthcare (medical and dental) plan which offers health insurance for retired employees. The published insurance rates are based primarily on the healthcare usage of active employees. Retirees pay 100 percent of the published rates. Since retirees use healthcare at a rate much higher than active employees, using these blended rates creates a subsidy for the retiree group. Employees who terminate their employment prior to retirement eligibility are not eligible to participate in the plan. Dependents, including surviving spouses, are permitted access to the plan.

Funding policy: The Board is authorized to establish benefit levels, subject to the minimum requirements set forth by Florida Statutes, and to approve the actuarial assumptions used in the determination of contribution levels. The Board establishes the contribution requirements of plan members and the Authority. These contributions are neither mandated nor guaranteed. The retiree pays the full cost of the premium each month for themselves, spouses and other dependents who are also eligible for coverage. The Authority does not subsidize any member premiums. The Authority has not set up a trust to prefund benefits. Benefits are funded on a pay-as-you-go basis.

Benefits for employees of JTM subject to union negotiations do not currently include any health benefits after retirement and are not considered by this Plan.

As of September 30, 2019, employee membership data related to the Plan was as follows:

Current retirees	
Under age 65	2
Over age 65	1
Dependents	
Total current retirees	3
Active employees fully eligible for benefits	239
Active employees not yet fully eligible for benefits	7
Total active employees	246
Total number of participants	249

NOTES TO FINANCIAL STATEMENTS

Year Ended September 30, 2019

NOTE L - OTHER POST-EMPLOYMENT BENEFITS (continued)

OPEB Liability

The total OPEB liability of \$157,595 is based on October 1, 2017 valuation data.

Actuarial assumptions, methods and valuation

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Although the valuation results are based on values the actuarial consultant believes are reasonable assumptions, the valuation result is only an estimate of what future costs may actually be and reflect a long-term perspective. Deviations in any of several factors, such as future interest rate discounts, medical cost inflation, Medicare coverage risk and changes in marital status could result in actual costs being greater or less than estimated.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

If necessary, liabilities are rolled forward from the actuarial valuation date to the measurement date through use of a roll forward method. Liabilities are adjusted for the passage of time by adding normal costs minus benefit payments, all adjusted with interest.

Actual coverage status is used: females assumed 3 years younger than male spouse.

All employees not participating in coverage currently are assumed to not elect to participate in the future.

35% of employees with coverage are assumed to elect to continue coverage upon retirement. 35% of those currently enrolled with spouse/family coverage will continue the same coverage upon retirement.

Additional actuarial assumptions used:

Cost Method
Asset Valuation Method

NOTE N - ACCOUNTING STANDARDS

In June 2017, the GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting. This statement is effective for the Authority's September 30, 2021 fiscal year end. Management is currently evaluating the impact of the adoption of this statement on the Authority's financial statements.

NOTE O - POLLUTION REMEDIATION

The Authority has a pollution remediation event for the required regulatory assessments and monitoring for a site. Based on the uncertainty of the amount of the remediation and any offsetting insurance or City reimbursement, the associated costs have not been accrued for and reflected in the accompanying financial statements.

NOTE P - SUBSEQUENT EVENT

The Authority has evaluated subsequent events through April 14, 2020; the date on which the financial statements were available for issuance, and has one significant item below.

COVID-19 will have an impact on JTA's financial results for FY20, but the extent or value is unknown at this time.

NOTE TO BUDGETARY COMPARISON SCHEDULE

Year Ended September 30, 2019

NOTE A - BUDGET AND BUDGETARY ACCOUNTING

The Authority prepares an annual budget for its General Fund. The Custodial Project Special Revenue Fund adopts project-length budgets rather than annual budgets. Accordingly, a budget and actual schedule is not presented for this fund. The Authority is authorized to transfer appropriated funds, from one of the purposes for which funds are appropriated, to another, if, in the discretion of the Authority, such transfer is necessary to carry out all of the purposes for which funds are appropriated, subject to applicable law. Thus, the legal level of budgetary control is at the fund level. All budgets are adopted in accordance with accounting principles generally accepted in the United States. Encumbrances outstanding at year-end for unfilled obligations are canceled and reappropriated in the succeeding year's budget. Such amounts, if material, are disclosed in the notes to financial statements under "Commitments and Contingencies." In addition, the Authority is not legally required to establish a budget for proprietary funds.

The General fund reported actual revenues exceeding budgeted revenues in the amount of \$2,323,085. The difference is attributable to favorable returns as compared to budget in Investment earnings of \$2,466,065, as well as \$56,170 of additional rents from North Florida TPO, Clear Channel, Amkin Hill and Greyhound rental increases that were not included in the budget.

The General fund reported \$6,929,998 from the sale of surplus property per the Authority's reserve policy.

The General fund reported lower expenditures than budgeted appropriations in the amount of \$155,106. This was due to savings achieved in Fringe Benefits, Materials and Supplies, Insurance and Training & Travel. Overall, the general fund reported a positive increase in fund balances of \$9,403,189.

SCHEDULE OF CHANGES IN THE TOTAL LIABILITY AND RELATED RATIOS - OTHER POST-EMPLOYMENT BENEFITS PLAN (Unaudited)

Year Ended September 30, 2019

As of September 30 Fiscal Year		2019		2018

Covered-Employee Payroll ¹				
Net OPEB Liability as a % Payroll ¹				
Expected Average Remaining Service Years of All				
Participants		4		4
Notes to Schedule:				
Benefit Changes		None		None
Changes of assumptions The discount rate was changed as follows: _Discount Rate_				
9/30/2018		3.50%		3.50%
9/30/2019		3.83%		

¹ Because this OPEB plan does not depend on salary, there is no salary information

No assets are accumulated in a trust that meets the criteria in GASB Statement 75, paragraph 4.

This is a 10-year schedule; however, the information in the schedule is not required to be presented retroactively Years will be added to this schedule in future fiscal years until 10 years of information is available

NOTE TO SCHEDULE OF CHANGES IN THE TOTAL LIABILITY - OTHER POST-EMPLOYMENT BENEFITS (Unaudited)

Year Ended September 30, 2019

	Other Post-Employment Medical Benefits				
Notes to Schedule:	2019	2018			
Valuation Date:	October 1, 2018	October 1, 2017			
Measurement Date:	October 1, 2018	October 1, 2017			
Actuarial cost method	Entry age normal	Entry age normal			
Amortization method	Level dollar	Level dollar			
Remaining amortization period	10 years	10 years			
Asset valuation method	Market value	Market value			
Medical Trend Assumptions;					
Rate of inflation	2.20%	2.20%			
Rate of Growth in Real income/GDP per capita	1.60%	1.60%			
Extra Trend Due To Technology And Other Factors	1.3%	1.3%			
Health Share of GDP Resistance Point	25%	25%			
Year for Limiting Cost Growth to GDP Growth	2075	2075			
Roll Forward Method	If necessary, liabilities are rolled forward from actuarial valuation date to measurement through use of a roll forward method. Liabilities are adjusted for passage of time by adding normal cost minus benefit payments all adjusted with interest.				
Coverage Status and Age of Spouse	Actual coverage status is used; females assumed 3 years younger than male spouse. All employees not participating in coverage currently are assumed to not elect to participate in the future. 35% of employees with coverage are assumed to elect to continue coverage upon retirement. 35% of those currently enrolled with spouse/family coverage will continue the same coverage upon retirement.				
Interest Assumptions	Not Funded	Not Funded			
Discount Rate	3.83%	3.50%			

This schedule is presented to illustrate the requirements of GASB 75. Data for fiscal years prior to September 30, 2017, is not available.

Notes to Schedule:

This schedule is presented to illustrate the requirements of GASB 75. Information is required to presented for 10 Years. However, until a full 10 years trend is compiled, the Authority will present information for only those years for which information is available.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

Year Ended September 30, 2019

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (the "Schedule") includes the federal and state grant activity of the Jacksonville Transportation Authority (the "Authority"). The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance") and Chapter 10.550, Rules of the Auditor General. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the presentation of the basic financial statements. Because the schedule presents only a select portion of the operations of the Authority, it is not intended to and does not present the financial position, change in net position or cash flows of the Authority.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures recognized in this schedule are reported on the accrual basis of accounting for the proprietary funds and on the modified accrual basis of accounting for the governmental funds, which are described in Note B to the Authority's financial statements. Such expenditures are reported following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The Authority did not elect to use the 10-percent de minimis indirect cost rate.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority"), a component unit of the City of Jacksonville, Florida, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated April 14, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

Report on Compliance for Each Major Federal Program and State Project

We have audited the Jacksonville Transportation Authority's (the "Authority") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the *Department of Financial Services' State Projects Compliance Supplement* that could have a direct and material effect on the Authority's major Federal programs and State projects for the year ended September 30, 2019. The Authority's major Federal programs and State projects are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with Federal and State statutes, regulations and the terms and conditions of its Federal awards and State projects applicable to its Federal programs and State projects.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Authority's major Federal programs and State projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of the Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and Chapter 10.550, Rules of the Auditor General. Those standards, the Uniform Guidance and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program or State project occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each of the major Federal programs and State projects. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on each of the Major Federal Programs and State Projects

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs and State projects for the year ended September 30, 2019.

Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each of its major Federal programs or State projects to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each of its major Federal programs and State projects and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program or State project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program or State project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General.* Accordingly, this report is not suitable for any other purpose.

MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550 OF THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board Members Jacksonville Transportation Authority Jacksonville, Florida

Report on the Financial Statements

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority") as of and for the year ended September 30, 2019, and have issued our report thereon dated April 14, 2020.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements performed in accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards, AT-C* Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General.* Disclosures in those reports and schedule, which are dated April 14, 2020, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and associated recommendations made in the preceding financial audit report. There were no findings in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in Note A in the notes to the financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Authority has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Authority did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Authority's financial condition, and our financial condition assessment was based in part on representations made by management and the review of the financial information provided by the same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we noted the following item to help improve on financial reporting;

1. We recommend that the Authority maximize the general ledger with the utilization of funds to maintain the full accrual financial items, such as, long term liabilities and capital asset activity.

Special District Component Units

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board Members and applicable management of the Authority, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have examined the Jacksonville Transportation Authority's (the "Authority") compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2019. Management of the Authority is responsible for the Authority's compliance with the specified requirements. Our responsibility is to express an opinion on the Authority's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Authority complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Authority's compliance with specified requirements.

In our opinion, the Authority complied, in all material respects, with Section 218.415, Florida Statutes, during the year ended September 30, 2019.
